1 Change Request: Book of Reference

1.1 Introduction

- 1.1.1.1 This change request: Book of Reference is submitted by the Morgan and Morecambe Offshore Wind Farms: Transmission Assets (the Applicants) to accompany the Change Request Report (Document Reference S_MMCR4).
- 1.1.1.2 The Applicants are seeking a Change Request in respect of its application (the Application) to the Secretary of State for a development consent order (DCO) for the construction, operation and decommissioning of the Morgan and Morecambe Offshore Wind Farms: Transmission Assets.
- 1.1.1.3 This Change Request Book of Reference refers only to those plots and interests which are impacted by the Change Request and should be read in conjunction with the Change Request: Land Plans (Document Reference S_MMCR_14).

Introduction and Summary

1. This Book of Reference accompanies the application for a Development Consent Order for the Morgan and Morecambe Offshore Wind Farms: Transmission Assets ("the authorised project"), as required by Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("the Regulations").
2. The purpose of the authorised project is to connect the Morgan Offshore Wind Project: Generation Assets and Morecambe Offshore Windfarm: Generation Assets (referred to collectively as the 'Generation Assets') to the National Grid. The Generation Assets are each subject to separate applications for development consent.
3. The Morgan and Morecambe offshore wind farms will be electrically separate, with aligned offshore export cable corridors to landfall and aligned onshore export cable corridors to separate onshore substations, and onward connections to the National Grid, at Penwortham, Lancashire. The Applicants (Morgan Offshore Wind Limited and Morecambe Offshore Windfarm Limited) have sought to align the location of the transmission infrastructure needed to deliver the electricity generated by their offshore wind farms to the National Grid at Penwortham.
4. The land described in this Book of Reference, which is to be subject to powers of compulsory acquisition and/or temporary possession ("the Order Land"), is required to deliver the works comprising the authorised project which are described in detail in Part 1 of Schedule 1 of the draft Development Consent Order ("the dDCO" or "the Order") and shown on the Works Plans (Document reference B7 and B8). This Book of Reference is part of the application documents for the authorised project and should be read in conjunction with the Land Plans, the Crown Land and the Special Category Land Plans (B10), the Statement of Reasons (Document reference D2) and the dDCO (Document reference C1).
5. Every parcel of land that is affected is identified on a plot-by-plot basis and a unique reference number has been ascribed to each plot. The plots are shown on the Land Plans which accompany the dDCO. For each plot the Book of Reference identifies whether the Applicants are both, or individually, seeking the power to acquire that plot outright, the power to create and/or acquire permanent rights, or the power to create and/or acquire temporary rights of possession and use. The Book of Reference also lists the persons with land outside the order limits who may be entitled to make a relevant claim for compensation due to the effects of construction or when the authorised project is operational.
6. To ensure that each wind farms transmission assets can be delivered independently, the rights being sought over plots differ in some instances between Morgan Offshore Wind Limited and Morecambe Offshore Wind Farm Limited.

Where this is the case, "A" for Morgan Offshore Wind Limited and "B" for Morecambe Offshore Windfarm Limited have been utilised to denote plots and show the acquisition type and the rights to be acquired for each Applicant in the columns "Acquisition (Morgan)" and "Acquisition (Morecambe)" in Part 1 of the Book of Reference. Where a plot number is silent on the A or B reference, the undertakers are both seeking rights over the same plot although, in some cases the rights being sought may differ between Applicants. In instances where one Applicant has "N/ A" in their respective column, no rights are being sought over that plot.

7. The dDCO seeks powers to compulsorily acquire both land and new rights (both temporary and permanent) for the purposes of the construction, operation and maintenance of the authorised project. Some of the plots identified in Part 1 of the Book of Reference will be subject to acquisition of permanent rights (including imposition of restrictive covenants) pursuant to Article 22 (Compulsory acquisition of rights) and Schedule 8 (Land in which only new rights etc. may be required) of the dDCO. These plots are shown coloured blue on the Land Plans.
8. Plots that are subject to the acquisition of the freehold, including all interests and rights in that land, for example the land required for the onshore substations will be coloured Pink on the Land Plans.
9. Plots that are subject to powers of temporary possession only, such as for the purpose of access and/or use as a temporary construction compounds or areas only required during construction are listed in Schedule 7 of the dDCO and shown coloured yellow on the Land Plans.
10. The colours shown on the Land Plans indicate the type of acquisition sought as set out in Table 1 below.

Table 1:

Colour of the plot on the land plans	Description of Acquisition sought in Book of Reference	Acquisition Type	Principal Relevant dDCO Article (s)
Pink	"Freehold Acquisition (and Temporary Possession for the undertaker entitled to acquire such Freehold Acquisition"	Compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land) and temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work.	Article 20
Pale Blue	"Permanent Rights (and Temporary Possession for the undertaker entitles to acquire such Freehold Acquisition"	Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants) and temporary possession and use of land,	Article 22

Colour of the plot on the land plans	Description of Acquisition sought in Book of Reference	Acquisition Type	Principal Relevant dDCO Article (s)
		primarily during construction and for up to 12 months from completion of the relevant work.	
Yellow	"Temporary possession"	Temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work	Article 29
Blue and Yellow hatched	"Morgan permanent rights and Morecambe temporary possession"	Morgan (Project A)Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants) and Morecambe (Project B)Temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work	Article 22 & Article 29
Blue and Yellow hatched with dot marker overlay	"Morecambe permanent rights and Morgan temporary possession"	Morecambe (Project B)Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants) and Morgan (Project A)Temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work	Article 22 & Article 29
Blue with Pink hatched with dot marker overlay	"Morgan permanent rights and Morecambe freehold acquisition"	Morgan (Project A)creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants) and Morecambe (Project B) Compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land)	Article 22 & Article 20

Colour of the plot on the land plans	Description of Acquisition sought in Book of Reference	Acquisition Type	Principal Relevant dDCO Article (s)
Pink and Yellow hatched with dots marker overlay	"Morgan temporary possession and Morecambe freehold acquisition"	Morgan (Project A) temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work and Morecambe (Project B) compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land)	Article 29 & Article 20
Pink and Blue hatched	"Morgan freehold acquisition and Morecambe permanent rights"	Morgan (Project A) compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land) and Morecambe (Project B) creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)	Article 22 & Article 20
Pink and Yellow hatched	"Morgan freehold acquisition and Morecambe temporary possession"	Morgan (Project A) compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land) and Morecambe (Project B) temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work	Article 29 & Article 20

11. The Applicants have taken the cautious approach of seeking powers of compulsory acquisition (or rights of use) in respect of all plots of land required for the authorised project even where they already hold an interest or presume they hold an interest in the land. This approach has been taken to ensure that the Applicants have the ability to acquire the interests they need in the whole of the Order Land, even where an unidentified owner later asserts an interest in land which the Applicants believes they own or have rights.

Rights which may be acquired

12. For plots in which new rights are to be acquired and/or restrictive covenants are to be imposed, the Applicants have sought to create categories of rights that are tailored to the particular right sought in order to minimise the effect on the interests continued use of the land.
13. The dDCO (Document reference CI) seeks powers to override existing easements and other rights and for the extinguishment of private rights in land which is compulsorily acquired. The purpose of these powers is to enable the construction, operation, maintenance and decommissioning of the authorised project.

	<p>12. 2. Restrictive covenants</p> <p>A restrictive covenant over the land for the benefit of the remainder of the Order land to prevent the erecting of buildings or structures, altering ground levels, planting trees or carrying out operations or actions which may obstruct, interrupt, or interfere with the exercise of the rights.</p>

14. This Book of Reference is comprised of five Parts, in accordance with Regulation 7(1) of the Regulations, as follows:

- a. Part 1 contains the names and addresses of those who own, lease, occupy or have another interest in the land that will be affected by the authorised project and the rights contained in the dDCO. A person is within Category 1 if the Applicants after making diligent inquiry, know that they are an owner, lessee, tenant, or occupier of the land. A person is within Category 2 if they are interested in the land or have the power to sell and convey or release the land. Parties recorded in Part 3 of this Book of Reference have also been included in Part 1.
- b. Part 2 lists persons who may be entitled to make a relevant claim, also called "Category 3" persons. A person is within Category 3 if the Applicants believe that, if the Order were to be made and fully implemented, they would or might be entitled to make a relevant claim as defined in section 57(6) of the 2008 Act. A relevant claim is a claim under section 10 of the Compulsory Acquisition Act 1965, a claim under part 1 of the Land Compensation Act 1973, or a claim under section 152(3) of the 2008 Act. This part therefore contains the names and addresses of those who have an interest in the Order land and may be entitled to claim compensation for loss resulting from the implementation of the Order and use of the authorised project. This part also contains the names and addresses of those without an interest in the Order land, who may be entitled to claim compensation for loss resulting from the implementation of the Order and use of the authorised project;
- c. Part 3 contains the names and addresses of those entitled to enjoy easements or other private rights which it is proposed may be extinguished, suspended or interfered with in connection with the authorised project, pursuant to the Order;
- d. Part 4 identifies plots in which there is a Crown interest that will be affected by the authorised project and the rights contained in the Order; and
- e. Part 5 identifies plots which constitute "special category land" for the purposes of section 132 of the Planning Act 2008 that will be affected by the authorised project and the rights contained in the Order. This is land -

- i. the acquisition of which is subject to special parliamentary procedure.
- ii. which is special category land
- iii. which is replacement land

Given the nature of the works to be undertaken, the Applicants believe that the Order land listed within Part 5, when burdened with the rights contained in the Order, will be no less advantageous than it was before to the following persons-

- i. the persons in whom it is vested
- ii. other persons, if any, entitled to rights of common or other rights, and
- iii. the public

The Applicants are therefore of the opinion that while they have identified open space within the Order land, there is no requirement for the provision of replacement or exchange land.

Book of Reference notes

- 15. Part 1 of this Book of Reference provides the area in square metres of all land included in the dDCO. Areas have not been repeated in Parts 2 to 5 of this Book of Reference.
- 16. The term "approximately" is used before all plot area measurements as these measurements are given in square metres and each measurement is rounded up to the nearest whole square metre.
