1. Introduction

The Applicants have produced a Change Request Land Rights Tracker (LRT) which is to replace a Schedule of Negotiations and Statutory Undertakers Position Statement.

This tracker only includes those affected by the Change Request

This tracker has been prepared in two separate tables:

Part 1	Category 1 Owners
Part 2	Statutory Undertakers and Other Interests

Part 1

Part 1 of the LRT includes all Category 1 Owners or Reputed Owners identified within the Book of Reference [D3] where acquisition of land and rights is required, and the land interest is able to provide proof of title.

Part 1 of the LRT does not include tenants, lessees and occupiers identified as Category 1 interests in the Book of Reference, save for where they have submitted representations during Examination. The Applicants are seeking separate occupier's consent with tenants, lessees or occupiers where applicable which is assessed on a case by case basis.

The LRT does not include commentary with Category 2 interests identified in the Book of Reference as these rights are captured within the voluntary agreements with Category 1 Owners or Reputed Owners.

The LRT does not include commentary with Category 3 interests identified in the Book of Reference as they are outside the Order Land and therefore not subject to any acquisition of land, rights nor temporary possession.

Where no interest has come forward declaring or proving ownership of unregistered plots, negotiations are not ongoing, and the plots have not been included in the LRT.

Where the Project is seeking freehold acquisition, the interest rows have been highlighted in pale blue.

Where the Project is no longer seeking an agreement due to clarification or a change in ownership, the interest rows have been highlighted in pale orange.

Part 2

Part 2 of the LRT includes commentary in respect of voluntary agreements being sought with Statutory Undertakers in the Book of Reference as having rights and/or apparatus within the Order Land. The progress of negotiations regarding protective provisions with Statutory Undertakers are now recorded in the SU Negotiations Progress Tracker.

Part 3

Part 3 of the LRT includes known Occupiers who hold an interest within a written agreement of 2 years or more of which there are none affected by the Change Request.

The Applicant will keep these under review and Occupiers will be added on a case-by-case basis once details are obtained from the Landlord.

2. Section Notes

Each tracker includes seven Sections, each with multiple columns.

Section A provides the name of the Affected Party as an individual land interest within the Order Land, their unique reference number and the name and company of their agent if they are represented professionally.

Section B provides the Examination Library references associated with any Relevant Representation, Written Representation or other document provided by the Affected Party.

Section C provides an overview of the status of any objection as well as a summary of any objection.

Section D provides information in respect of the Affected Party's interest within the Order Land, including the description of rights sought by Morgan for Book of Reference plots and the associated work number and description.

Section E provides information in respect of the Affected Party's interest within the Order Land, including the description of rights sought by Morecambe for Book of Reference plots and the associated work number and description.

Section F provides an overview of the status of voluntary agreements as well as a summary of the negotiation status of agreements being sought.

Following the conclusion of the last meeting, the Applicants were able to circulate a Version 4 document to all land agents.</p> <p>It is the Applicants' intention to move the negotiations away from the group setting and into a landowner-specific forum, where site-specific issues—including those discussed at the most recent meeting on 5th February 2025—will be addressed with the aim of resolving outstanding concerns. This will be achieved following the issue of fully populated Heads of Terms to all affected parties during the week commencing 19th May. The Applicants will then contact affected parties and their agents directly to schedule meetings and progress voluntary negotiations.</p> <p><b>Deadline 3 Update</b> Populated HoTs were issued to the land interest on 19th May 2025. The Applicant's appointed land agent met the land interest's appointed agent on 10th June 2025 to progress landowner-specific aspects of the HoTs. The Applicant invited the land interest to a landowner engagement event on 2nd July 2025 at which the land interest could have booked a session with the Applicant to discuss specific matters relating to the HoTs. Negotiations and discussions are ongoing with the land interest's appointed agent, and the Applicant is hopeful that the necessary land rights can be secured through a voluntary agreement.</p> <p><b>Deadline 4 Update</b> The Applicant's appointed land agent is continuing to engage with the land interest's appointed land agent with a view to agreeing HoTs. A further meeting was held with the land interest's appointed land agent on 24th July. The principal outstanding matters are of a landowner specific nature including commercial terms for the Option and Deed of Easement, impacts on land drainage and the availability of alternative grazing for horses. The land interest's appointed land agent will be considering Change Request 1A and 1B (removal of existing access) and is currently awaiting plans showing the changes.</p>
